-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 14 to 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Sterret (US 3,638,255). Sterret shows a seat cushion 13 that and outer cover 21 which contains a cushioning material 20. The outer cover 21 is air and gas permeable and is formed by rectangular layers 22, 23 which are stitched together along three edges 16, 17, 18 and secured along the fourth edge 19 by a zipper 25'. This allows removal and cleaning of the cushioning material 20. The cushioning material 20 is formed from three superimposed layers 28, 29, and 30 made from polyester fiber. The outer layers 28, 30 can be impregnated with carbon such as activated charcoal in order to absorb odors. These layers can be considered to form at least one odor absorbing material. The middle layer 29 can be considered as forming a sound dampening material.

Response To Arguments

Applicant's arguments filed August 25, 2005 with respect to claims 14 to 16 have been fully considered but they are not persuasive.

Applicant's arguments with respect to claims 14 to 16 do not comply with 37 CFR 1.111(c) because they do not clearly point out the patentable novelty which he or she thinks the claims present in view of the state of the art disclosed by the references cited or the objections made. Further, they do not show how the amendments avoid such references or objections.

Allowable Subject Matter

Claims 1 to 13 are allowed.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
